Remuneration of KMPs and other employees

Policy on the remuneration of KMPs and other employees :

Fixed pay

The remuneration and reward structure for employees comprises two broad components — annual remuneration and long-term rewards.

The committee would determine the remuneration of the directors and formulate guidelines for the remuneration payable to the employees.

These guidelines are as under :

Annual remuneration

Annual remuneration refers to the annual compensation payable to the employees of the Company. This comprises two parts – a fixed component and a performance-linked variable component based on the extent of achievement of the individual's objectives and performance of the business unit. Every employee is required to sign

a performance contract which clearly articulates the key performance measures for that particular defined role. The performance-linked variable pay will be directly linked to the performance on individual components of the performance contract and the overall performance of the business. An employee's variable pay would, therefore, be directly dependent on key performance measures that represent the best interests of shareholders. However, considering the nature and size of the company, the Board/Committee shall stick to fixed component compensation for the now and defer the implementation performance linked variable pay.

The objective is to set the total remuneration at levels that would attract, motivate and retain high-caliber, high potential personnel in a competitive global market. The total remuneration level is to be reset annually based on a comparison with the relevant peer group, established through independent compensation surveys, from time to time.

Long-term rewards

Long-term rewards may include Long-Term Incentive Plans (LTIP), under which incentives would be granted to eligible key employees based on their contribution to the performance of the Company, relative position in the organization, and length of service under the supervision and approval of the committee. The Company could

implement various long term awards schemes that could include LTIP spread over several years with payouts in multiple tranches linked to Company's performance.

Another form of long term awards could be in the nature of stock options of the Company. Stock options may be granted to key employees and high performers in the organization who would be selected by the committee based on their

past performance and potential. The grant, vesting and other scheme details would be formulated from time to time. These long-term reward schemes are implemented to attract and retain key talent in the industry. Minimum remuneration to managing director If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its managing director in accordance with the provisions of Schedule V of the Companies Act, 2013 or, if it is not able to comply with such provisions, with the prior approval of the Central Government. However, considering the nature and size of the company, the company shall not pay any remuneration to the Managing Director.

Remuneration to non-executive / independent directors

Remuneration

The remuneration payable to each non-executive director is based on the remuneration structure as determined by the Board, and is revised from time to time, depending on individual contribution, the Company's performance, and the provisions of the Companies Act, 2013 and the rules made thereunder. The remuneration to non-executive directors (including independent directors) may be paid within the monetary limit approved by shareholders, subject to the limit not exceeding 1% of the profits of the Company computed as per the applicable provisions of the Companies Act, 2013.

The remuneration structure for independent directors are not covered here, considering the nature and size of the Company. However, the remuneration policy may be altered by the Board / Committee on a later date considering the then status of the Company.

The Company normally has five regular Board meetings in a year. Independent directors are expected to attend the four quarterly Board meetings and the AGM.

Stock options

Independent directors shall not be entitled to any stock option of the Company.

Policy review

This policy is framed based on the provisions of the Companies Act, 2013 and rules there under and requirements of Clause 49 of the Listing Agreement with the stock exchange.

In case of any subsequent changes in the provisions of the Companies Act, 2013 or any other regulation which makes any of the provisions in the policy inconsistent with the Act or regulations, the provisions of the Act or regulations would prevail over the policy, and the provisions in the policy would be modified in due course to make it consistent with the law.

This policy shall be reviewed by the nomination and remuneration committee as and when changes need to be incorporated in the policy due to changes in regulations or as may be felt appropriate by the committee. Any change or modification in the policy as recommended by the committee would be given for approval to the Board.

Annexure 8- Whistler policy
The purpose of this policy

R.T.Exports Ltd.('RTEL') is committed to complying with the foreign and domestic laws that apply to them, satisfying the Company's Code of Conduct and Ethics, and particularly to assuring that business is conducted with integrity and that the Company's financial information is accurate. If potential violations of Company policies or applicable laws are not recognized and addressed promptly, both the Company and those working for or with the Company could face governmental investigation, prosecution, fines, and other penalties. That can be costly. Consequentially, and to promote the highest ethical standards, the Company will maintain a workplace that facilitates the reporting of potential violations of Company policies and applicable laws. Employees must be able to raise concerns regarding such potential violations easily and free of any fear of retaliation. That is the purpose of this policy (the 'Policy' or the 'Whistleblower Policy'). You are required to read this Policy and submit the attached certification that you will comply with it.

Your duty to report

Everyone is required to report to the Company any suspected violation of any law that applies to the Company and any suspected violation of the Company's Code of Conduct and Ethics. It is important that you report all suspected violations. This includes possible accounting or financial reporting violations, insider trading, bribery, or violations of the anti-retaliation aspects of this Policy. Consult the Company's Code of Conduct and Ethics for a more detailed description of potential violations and other areas of particular concern. Retaliation includes adverse actions, harassment, or discrimination in your employment relating to your reporting of a suspected violation. It is the policy of the Company that you must, when you reasonably suspect that a violation of an applicable law or the Company's Code of Conduct and Ethics has occurred or is occurring, report that potential violation. Reporting is crucial for early detection, proper investigation and remediation, and deterrence of violations of Company policies or applicable laws. You should not fear any negative consequences for reporting reasonably suspected violations because retaliation for reporting suspected violations is strictly prohibited by Company policy. Failure to report any reasonable belief that a violation has occurred or is occurring is itself a violation of this Policy and such failure will be addressed with appropriate disciplinary action, including possible termination of employment.

How to report

You must report all suspected violations to:

- (i) your immediate supervisor;
- (ii) the Chief Compliance Officer at compliance@rtexports.com or
- (iii) anonymously, by sending an email to headoffice@rtexports.com

If you have reason to believe that your immediate supervisor or the Chief Compliance Officer is involved in the suspected violation, your report may be made to the Audit Committee of R.T. Exports Ltd.; Board of Directors (the 'Audit Committee') at : Chairperson, Audit Committee, R.T. Exports Ltd. 508 Dalamal House, J. B. Road, Nariman Point, Mumbai 400 021. Because you have several means of reporting, you need never report to someone you believe may be involved in the suspected violation or from whom you would fear retaliation.

Your report should include as much information about the suspected violation as you can provide. Wherever possible, it should describe the nature of the suspected violation; the identities of persons involved in the suspected violation; a description of documents that relate to the suspected violation; and the time frame during which the suspected violation occurred. Where you have not reported anonymously, you may be contacted for further information.

Investigations after you report

All reports under this Policy will be promptly and appropriately investigated, and all information disclosed during the course of the investigation will remain confidential, except as necessary to conduct the investigation and take any remedial action, in accordance with applicable law. Everyone working for or with the Company has a duty to cooperate in the investigation of reports of violations. Failure to cooperate in an investigation, or deliberately providing false information during an investigation, can be the basis for disciplinary action, including termination of employment. If, at the conclusion of its investigation, the Company determines that a violation has occurred, the Company will take effective remedial action commensurate with the nature of the offense. This action may include disciplinary action against the accused party, up to and including termination. Reasonable and necessary steps will also be taken to prevent any further violations of Company policy.

Retaliation is not tolerated

No one may take any adverse action against any employee for complaining about, reporting, or participating or assisting in the investigation of, a reasonably suspected violation of any law, this Policy, or the Company's Code of Conduct and Ethics. The Company takes reports of such retaliation seriously. Incidents of retaliation against any employee reporting a violation or participating in the investigation of a reasonably suspected violation will result in appropriate disciplinary action against anyone responsible, including possible termination of employment. Those working for or with the Company who engage in retaliation against reporting employees may also be subject to civil, criminal and administrative penalties.

Document retention

All documents related to reporting, investigation and enforcement pursuant to this Policy shall be kept in accordance with the Company's record retention policy and applicable law.

Modification

The Audit Committee or the Board of Directors of R.T. Exports Ltd. can modify this Policy unilaterally at any time without notice. Modification may be necessary, among other reasons, to maintain compliance with federal, state or local regulations and / or accommodate organizational changes within the Company. Please sign the acknowledgment form below and return it to Compliance Officer. **MANAGEMENT DISCUSSIONS AND ANALYSIS (MD&A)****Overview**

Monetary policy is likely to be supportive with the Reserve Bank of India (RBI) having moved to flexible inflation targeting. The manufacturing sector is likely to benefit from lower interest rates. The global economy in FY 2014-15 witnessed divergent trends among major economies. India's economy is poised to return to its high-growth path, thanks to lower fiscal and current account deficits, falling inflation, benign commodity prices, and structural reforms to boost investments.. However, productivity and capital efficiency improvement are likely to drive near-term growth.

The main factors driving growth are increased consumer interest in higher protein diets greater affordability due to growing disposable incomes and rising awareness and availability of agro products through channels such as organised retail and food services segment. India's formal Agro-product market has shown strong growth in recent years, which is likely to accelerate due to products innovation, enabling government policies and industry consolidation. The Indian Agro-product Industry is expected to grow at about 13-15% annually over the next 5 years due to increase in consumption of value added products and the value chain becoming more and more organised. The Market Share of value chain products is likely to increase to 31% from the current 21% during this period.

Strong brand of your company coupled with varied product portfolio enables it to meet adverse conditions confidently and overcome it. Your Company is well aware of the industrial scenario and being alert, focuses mainly on long term goals, steady and profitable development. Your Company remains confident of its long term business prospects and its ability to sustain a fair return to the shareholders.

The financial statements have been prepared under the historical cost convention, in accordance with Generally Accepted Accounting Principles (GAAP) and under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act'), read with Rule 7 of the Companies (Accounts) Rules, 2014 and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The accounts have been prepared on the going concern basis. The Company has entered into a business of handling, storage and transportation of agri products at Bundi (Rajasthan) The estimates and judgements relating to the financial statements reflect in a true and fair manner the form and substance of transactions, and reasonable present our state of affairs, profit and cash flows for the year.

I. Industry structure and developments

Changing economic and business conditions, evolving consumer preferences, rapid technological innovation and adoption and globalization are creating an increasingly competitive market environment that is driving corporations to transform the manner in which they operate. Companies in this environment are now focusing even more on their core business objectives, such as revenue growth, profitability and asset efficiency.

Majority of rural population has been employed in crop cultivation, crop handling and movement of rice and transport industry. It has fast growing brand demand in domestic and Industrial market. Demand for branded rice is slowly spreading to rural sector, rice being the staple food for majority of the Indian population. Further substantial portion of Basmati rice produced in India has huge demand in Industrial market. Government of India has been considering agriculture and farming under priority sector and Rice Industry is an important constituent in the agricultural sector of Indian Economy.

IV. Opportunities and threats**i) Our Strengths**

We believe our competitive strengths include leadership in delivering good quality product that enable clients in turn to deliver improved business results in addition to optimizing the efficiency of their business, our proven Global Delivery Model, commitment to quality and process execution, strong brand and long-standing client relationships, status as an employer of choice, ability to scale, innovate and lead makes us a competitive player.

ii) Our Strategy

We seek to further strengthen our position as a leading global agri product trading and export house having agri warehouses and processing units throughout India by:

- Strengthening our strategic partnership with our clients
- Increasing our relevance to clients by being able to work in the entire spectrum of their business
- Delivering higher business value to clients through the alignment of our structure and offerings to their business objectives.

To achieve these goals, we seek to increase business from existing and new clients, continue to enhance our engagement models and offerings, expand geographically, continue to develop deep industry knowledge, pursue alliances and strategic acquisitions, enhance brand visibility and continue to invest in infrastructure and employees.

iii) Opportunities

Rice Business is coming of age and it is ranked among first few business of India. With policy measures from the government, the agriculture accounts for substantial percentage of the country's exports. Indians spend majority of their household expenditure on food items at present. Agriculture sector industry would create substantial employment opportunities in the coming years. Strong urban middle class and changing food habits, promises a huge potential to be tapped. Agriculture has been declared as a priority sector by the government. The National Policy towards the same has been revised for an integrated approach to facilitate speedy growth. The aim of the policy is to simplify procedures to comply with the need and growth of the sector. Under infrastructure development, Agro-Food Parks are identified in various Indian cities, which in turn will help agriculture. The various states realising the importance of the Food Processing Industry from an employment as well as revenue generation perspectives have been extremely forthcoming in bolstering growth in this industry. Some states that have gone an extra mile by providing various fiscal as well as non-fiscal initiatives include Andhra Pradesh, Punjab, Madhya Pradesh, Uttar Pradesh and Karnataka. Agri warehousing has to play a major role in checking the food prices. Central & State Governments are giving a lot of emphasize and incentives for development of Agri warehouses. Your Company aims to gain benefit of the same.

iv) Threats

The world economy has witnessed an unprecedented economic crisis causing severe recessionary trends in various countries. The synchronized global recession coupled with dramatic changes in the financial landscape is further decelerated the growth. Compared to other economies, India has been somewhat stable as the government has taken some proactive steps to combat the situation. However, favourable demographics and low penetration levels still continue to remain the key levels of the consumption for India. Despite this pall of gloom that bears on us, there are reasons to remain optimistic and confident. India's inherent strengths provide a strong foundation to better withstand the aftermath of the downturn in the global economy. Rice & Wheat are basic necessity of human being and invariably consumed by everyone in different ways. Hence, the Basic Food segment, in which your Company is operating, is less affected due to good production levels, increase in area under cultivation and huge and ready market availability for the products.

v) Our Competition

For larger projects, we typically compete with other exporters in response to requests for proposals. Clients

often cite our Global Delivery Model, ability to scale, superior quality and process execution, industry expertise, experienced management team, talented professionals, track record and competitive pricing as reasons for awarding us contracts.

In the future, we expect intensified competition from some of the firms above, and may also experience competition from new companies. In particular, we expect increased competition from firms that strengthen their offshore presence in India or other low-cost locations and from firms in market segments that we have recently entered.

We understand that price alone cannot constitute a sustainable competitive advantage. We believe that the principal competitive factors in our business are :

- Attracting and retaining high-quality management, technology professionals, and sales personnel
- Articulating and demonstrating long-term value to potential customers
- Effectively integrating onsite and offshore execution capabilities to deliver high-quality, seamless, scalable, cost-effective services
- Increasing the scale and breadth of service offerings to provide one-stop solutions for customer needs
- Keeping pace with ever-changing technology and customer requirements
- Strong and well-recognized brand
- Proven track record of performance excellence and customer satisfaction
- Financial strength to be able to invest in personnel and infrastructure to support the evolving demands of customers
- High ethical and corporate governance standards to ensure honest and professional business practices and protect the reputation of the Company and its customers

We believe we compete favorably with respect to these factors.

V Outlook, risks and concerns

Outlook

Importance of Agri-warehouses are bound to increase as the Central, State Governments and public at large have realized the role of Agri-warehousing in checking the food prices. The demand for food grains would continue to grow with rise in income levels coupled with change in life style of the people. At the current population growth, rice production has to be enhanced to about 125 million ton by 2020. There is a huge potential for capacity expansion of the existing units in the domestic basmati rice milling industry. The domestic rice industry at present is fragmented and largely occupied by the small and inefficient unorganised units. The domestic industry is at nascent stage and has great potential. However, our company has to compete with exporters of other countries in export of Basmati rice. Your Company is optimistic in increased turnover as it has regular overseas clientele and the carry-over stocks in countries like Saudi Arabia has depleted and we are confident of getting good export orders from them.

This section lists forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these statements as a result of certain factors. This section lists our outlook, risks and concerns:

- Our revenues and expenses are difficult to predict and can vary significantly from period to period, which could cause our share price to decline.
- We may not be able to sustain our previous profit margins or levels of profitability.
- The economic environment, pricing pressures, and decreased employee utilization rates could negatively impact our revenues and operating results.
- Any inability to manage our growth could disrupt our business and reduce our profitability.
- We may face difficulties in providing end-to-end business solutions for our clients, which could lead to clients discontinuing their work with us, which in turn could harm our business.
- Intense competition in the market for quality goods could affect our cost advantages, which could reduce our share of business from clients and decrease our revenues.

- Our revenues are highly dependent upon a small number of clients, and the loss of any one of our major clients could significantly impact our business.
- Restrictions on immigration may affect our ability to compete and provide products to clients in other jurisdictions, which could hamper our growth or cause our revenues to decline.
- Our success depends in large part on our management team and key personnel and our ability to attract and retain them.
- Our failure to complete fixed-price, fixed-timeframe contracts or transaction-based pricing contracts within budget and on time may negatively affect our profitability.
- Our client contracts can typically be terminated without cause and with little or no notice or penalty, which could negatively impact our revenues and profitability.
- Our engagements with customers are singular in nature and do not necessarily provide for subsequent engagements.
- Our client contracts are often conditioned on our performance, which, if unsatisfactory, could result in lower revenues than previously anticipated.
- Some of our long-term client contracts contain benchmarking provisions which, if triggered, could result in lower future revenues and profitability under the contract.
- Our increasing work with government agencies may expose us to additional risks.
- Compliance with new and changing corporate governance and public disclosure requirements adds uncertainty to our compliance policies and increases our costs of compliance.
- Disruptions in telecommunications, system failures, or virus attacks could harm our ability to execute our Global Delivery Model, which could result in client dissatisfaction and a reduction of our revenues.
- We may be liable to our clients for damages caused by disclosure of confidential information, system failures, errors or unsatisfactory performance of services.
- We are investing substantial cash assets in new facilities and physical infrastructure, and our profitability could be reduced if our business does not grow proportionately.
- We may be unable to recoup our investment costs to develop our software products.
- We may engage in acquisitions, strategic investments / partnerships / alliances or other ventures that may or may not be successful.
- We may be the subject of litigation which, if adversely determined, could harm our business and operating results.
- The markets in which we operate are subject to the risk of earthquakes, floods, tsunamis, storms and other natural and man-made disasters.
- Our net income would decrease if the Government of India reduces or withdraws tax benefits and other incentives it provides us or when our tax holidays expire, reduce or are terminated.
- In the event that the Government of India or the government of another country changes its tax policies in a manner that is adverse to us, our tax expense may materially increase, reducing our profitability.
- We operate in jurisdictions that impose transfer pricing and other tax-related regulations on us, and any failure to comply could materially and adversely affect our profitability.
- Wage pressures in India and the hiring of employees outside India may prevent us from sustaining our competitive advantage and may reduce our profit margins.
- Terrorist attacks or a war could adversely affect our business, results of operations and financial condition.
- Regional conflicts in South Asia could adversely affect the Indian economy, disrupt our operations and cause our business to suffer.
- Changes in the policies of the Government of India or political instability could delay the further liberalization of the Indian economy and adversely affect economic conditions in India generally, which could impact our business and prospects.

- Our international expansion plans subject us to risks inherent in doing business internationally.
- The laws of India do not protect intellectual property rights (IPR) to the same extent as those of the U.S., and we may be unsuccessful in protecting our IPR. We may also be subject to third party claims of IP infringement.
- Our ability to acquire companies organized outside India depends on the approval of the Government of India and / or the Reserve Bank of India, and failure to obtain this approval could negatively impact our business.
- Indian laws limit our ability to raise capital outside India and may limit the ability of others to acquire us, which could prevent us from operating our business or entering into a transaction that is in the best interests of our shareholders.
- Sales of our equity shares may adversely affect the prices of our equity shares.
- Negative media coverage and public scrutiny may adversely affect the prices of our equity shares.

**CORPORATE GOVERNANCE REPORT****Our Corporate Governance Philosophy**

We believe that it is imperative for us to manage our business affairs in the most fair and transparent manner with a firm commitment to our values. For us, corporate governance is an ethically driven business process that is committed to values aimed at enhancing an organization's brand and reputation. Our corporate governance framework is a reflection of our culture, our policies, our relationship with stakeholders and our commitment to values. Accordingly, we always seek to ensure that our performance is driven by integrity. This is vital to gain and retain the trust of our stakeholders.

R.T.Exports philosophy of Corporate Governance is founded on the pillars of fairness, accountability, disclosures and transparency. These pillars have been strongly cemented which is reflected in your Company's business practices and work culture. The sound governance processes and systems guide the Company on its journey towards continued success. The practice of responsible governance has enabled your Company to achieve sustainable growth, while meeting the aspirations of its stakeholder's and societal expectations.

Your Company is committed to sound principles of Corporate Governance with respect to all of its procedures, policies and practices. The governance processes and systems are continuously reviewed to ensure highest ethical and responsible standards being practiced by your Company. Comprehensive disclosures, structured accountability in exercise of powers, adhering to best practices and commitment to compliance with regulations and statutes in letter as well as spirit have enabled your Company to enhance shareholder value. In fact, this has become an integral part of the way the business is done.

Our corporate governance framework ensures effective engagement with our stakeholders and helps us evolve with changing times.

The Securities and Exchange Board of India (SEBI) amended the Listing Agreement effective October 1, 2014, to bring in additional corporate governance norms for listed entities. These norms provide for stricter disclosures and protection of investor rights, including equitable treatment for minority and foreign shareholders.

The amended rules required companies to get shareholders' approval for related party transactions, establish whistleblower mechanisms, elaborate disclosures on pay packages and have at least one woman director on their boards. The amended norms are aligned with the provisions of the Companies Act, 2013, and are aimed to encourage companies to adopt best practices on corporate governance.

We believe that an active, well-informed and independent board is necessary to ensure the highest standards of corporate governance. It is well-recognized that an effective Board is a pre-requisite for a strong and effective corporate governance. At R T Exports, the Board of Directors ('the Board') is at the core of our corporate governance practice and oversees how the Management serves and protects the long-term interests of our stakeholders.

Our corporate governance framework ensures that we make timely disclosures and share accurate information regarding our financials and performance, as well as the leadership and governance of the Company.

Our corporate governance philosophy is based on the following principles:

- Corporate governance standards should go beyond the law and satisfy the spirit of the law, not just the letter of the law
- When in doubt, disclose. Ensure transparency and maintain a high level of disclosure
- Clearly distinguish between personal conveniences and corporate resources
- Communicate externally, and truthfully, about how the Company is run internally
- Comply with the laws of all countries in which we operate
- Have a simple and transparent corporate structure driven solely by business needs
- The Management is the trustee of the shareholders' capital and not the owner.

We firmly believe that Board independence is essential to bring objectivity and transparency in the Management and in the dealings of the Company. As on March 31, 2015, half of our Board members - two out of four - are independent members. An independent director is nominated as the chairperson of each of the audit, nomination and remuneration and stakeholders relationship committees.

Corporate Governance of listed companies has been regulated through Clause 49 of the Listing Agreement by the Securities and Exchange Board of India (SEBI). R.T. Exports Ltd. is in full compliance with Clause 49. This chapter of the

annual report, the information given under the chapters, Management Discussion and Analysis and Additional Shareholders' Information together constitute the compliance report of the Company on corporate governance during the year 2014-15.

Corporate Governance Guidelines

Over the years, the Board has developed corporate governance guidelines to help fulfill our corporate responsibility towards our stakeholders. These guidelines ensure that the Board will have the necessary authority and processes in place to review and evaluate our operations when required. Further, these guidelines allow the Board to make decisions that are independent of the Management. The Board may change these guidelines regularly to achieve our stated objectives.

A. Board composition

Size and composition of the Board

The current policy is to have an appropriate mix of executive and independent directors to maintain the independence of the Board, and separate its functions of governance and management. As on 31st March, 2015, the Board consists of 4 members, two of whom are executive or whole-time Directors, and other two are independent Directors. Both the executive Directors are our Promoters. The Board periodically evaluates the need for change in its composition and size. The Directors have expertise in the fields of strategy, management, finance, operations, technology, human resource development and economics. The Board provides leadership, strategic guidance, objective and independent view to the Company's management while discharging its fiduciary responsibilities, thereby ensuring that the management adheres to high standards of ethics, transparency and disclosure.

Each Director informs the Company on an annual basis about the Board and Board Committee positions he / she occupies in other companies including Chairmanships and notifies changes during the term of their directorship in the Company.

None of the directors on the Board is a Member in more than ten Committees and Chairman of more than 5 Committees (as specified in clause 49), across all the Companies in which he/she is a Director. The necessary disclosure regarding Committee positions have been made by the Directors.

None of the Non-Executive Independent Directors have any pecuniary relationship or transactions with the Company, its promoters, its senior management or its subsidiaries which in the judgement of Board may affect the independence of the Director.

Table No. 1

Name of Director	Designation	Category	
		Executive/ Non- Executive	Independent/ Non- Independent
Mr. Rashmi Bhimjyani	Chairman & Managing Director	Executive	Non - Independent
Mr Bhavik Bhimjyani	Director	Executive	Non - Independent
Mrs Asha Dawda	Director	Non - Executive	Independent
Mr. Sheetal Mehta	Director	Non - Executive	Independent

The nomination and remuneration committee works with the entire Board to determine the appropriate characteristics, skills and experience required for the Board as a whole and for individual members. Board members are expected to possess the required qualifications, integrity, expertise and experience for the position. They should also possess deep expertise and insights in sectors / areas relevant to the Company, and ability to contribute to the Company's growth. The Company shall not appoint or continue the employment of any person who has attained the age of 70 years as Managing Director / Executive Director and independent director. The term of the person holding this position may be extended at the discretion of the committee beyond the age of 70 years with the approval of shareholders by passing a special resolution based on the explanatory statement annexed to the notice for such motion indicating the justification for extension of appointment beyond 70 years as the case may be. Board members are expected to rigorously prepare for, attend and participate in all Board and applicable committee meetings. Each member is expected to ensure that their other current and planned future commitments do not materially interfere with their responsibilities with us.

Selection of new directors

The Board is responsible for the selection of new directors. The Board delegates the screening and selection process involved in selecting new directors to the nomination and remuneration committee, which consists exclusively of independent directors. The nomination and remuneration committee in turn makes recommendations to the Board on the induction of any new directors.

Membership term

The Board constantly evaluates the contribution of the members and periodically shares updates with the shareholders about re appointments according to the existing statute. The current law in India mandates the retirement of two-third of the executive board members (who are liable to retire by rotation) every year, and qualifies the retiring members for re appointment. Executive directors are appointed by the shareholders for the tenure of a maximum period of five years, but are eligible for re-appointment upon completion of their term. An independent director shall hold office for a term of up to five consecutive years on the board of the Company and will be eligible for re-appointment on passing of a special resolution by the Company.

Succession planning

Your company has got a well defined succession plan, and also prepares contingency plans for succession in case of any exigencies.

Board Remuneration Policy

Your Company is paying no remuneration to its Board including its Managing Director.

G. Shareholders

Disclosures regarding the appointment or re-appointment of directors:

The Companies Act, 2013 provides for appointment of independent directors. Sub section (10) of Section 149 of the Companies Act, 2013 (effective April 1, 2014) provides that independent directors shall hold office for a term of up to five consecutive years on the board of a company; and shall be eligible for re-appointment on passing a special resolution by the shareholders of the company.

Sub-section (11) states that no independent director shall be eligible for more than two consecutive terms of five years. Sub-section (13) states that the provisions of retirement by rotation as defined in sub sections (6) and (7) of Section 152 of the Act shall not apply to such independent directors.

The Board has been advised that non-executive (independent) directors so appointed would continue to serve the term that was ascertained at the time of appointment as per the resolution pursuant to which they were appointed. Therefore, it stands to reason that only those non executive (independent) directors who will complete their present term, at the ensuing AGM, being eligible and seeking re-appointment, be considered by the shareholders for re-appointment for a term of up to five consecutive years.

Non-executive (independent) directors who do not complete their term at the ensuing AGM, will continue to hold office till expiry of their term (based on retirement period calculation) and would thereafter be eligible for re-appointment for a fixed term in accordance with the 2013 Act.

Under the provisions of Clause 49 of the Listing Agreement and the Companies Act, 2013, company has to appoint a woman director. Your company took a note of the same and working towards that.

The detailed profiles of all these directors will be provided in the Notice convening the AGM.

Business Responsibility Report

We are committed to conducting our business responsibly. As part of our corporate strategy, *renew and new*, we are vigorously renewing our existing systems, and adopting innovations across the economic, social and environmental dimensions that not only benefit us but also our society. From launching solutions that fuel socio-economic progress, and pioneering new ways of making our company more energy-efficient, to enabling our employees on thinking, we are relying on our culture of learning and education to amplify value for our stakeholders. All of this is detailed in our Business Responsibility Report (BRR) for fiscal 2015. The BRR follows the National Voluntary Guidelines (NVGs) on Social, Environmental and Economic Responsibilities of Business, as notified by the Ministry of Corporate Affairs (MCA), Government of India.

At R.T. Exports, it is of prime importance that our Company affairs are transparent, ethical and driven by our core value system. Our value system, which is encapsulated as C-LIFE, comprises the following :

- Client value : To surpass client expectations consistently
- Leadership by example : To set standards in our business and transactions, and be an exemplar for the industry and ourselves
- Integrity and transparency : To be ethical, sincere and open in all our transactions
- Fairness : To be objective and transaction-oriented, and thereby earn trust and respect
- Excellence : To strive relentlessly and constantly to improve ourselves, our teams, our services and our products, and to become the best Corporate policies

Our corporate governance practices, including ethics and anti corruption, apply across the R.T. Exports Group, including our suppliers and partners. We firmly believe that following the highest standards of business conduct and ethics helps us run our business responsibly. Our Code of Conduct and Ethics helps us maintain the highest ethical standards for our employees. It complies with the legal requirements of applicable laws and regulations, including anti bribery, the ethical handling of conflicts of interest, and the fair, accurate and timely disclosure of reports and documents that are filed with the required regulatory bodies. Every employee attends a session on values during his or her induction, and acknowledges the Code of Conduct and Ethics through a sign-up process. Additional policies, such as the Whistleblower Policy, and the presence of a strong grievance redressal body help us maintain an uncompromising stand on value transgressions.

Enterprise risk management

Our enterprise risk management is based on a custom framework —

PSPD : Predictability, Sustainability, Profitability, and De-risking — which form the four cornerstones of our de-risked business model. Through this framework, we identify, assess, monitor and mitigate risks in the long, medium and short terms. We have strong internal audit processes that help us manage our risks strategically.

Sustainability focus

We believe that responsible business practices can not only lead to economic progress for us, but also sustainable progress for all our stakeholders. Our sustainability strategy encompasses economic, environmental and social imperatives, while paying attention to the needs and expectations of our internal and external stakeholders.

Our leaders have been championing sustainability initiatives through forums and bodies. We periodically communicate our progress on material aspects concerning our stakeholders. Regular discussions and reviews with the Board and its committees, senior management and other stakeholders across the organization help us work consistently towards fulfilling the expectations of our direct and indirect stakeholders.

Corporate Social Responsibility.

As per the Companies Act, 2013, all companies having a net worth of Rs. 500 crore or more, or turnover of Rs.1,000 crore or more, or a net profit of Rs. 5 crore or more during any financial year will be required to constitute a CSR committee of the Board of Directors comprising three or more directors, at least one of whom will be an independent director, and to have a CSR Policy approved by the Board. Since R.T. Exports Ltd. is not within the threshold limit provided for, CSR, the same is not applicable to the Company.

Commitment to responsible business Excellence, Fairness, Integrity and transparency, Leadership by example, Client value

The key dimensions of our corporate governance framework are as follows :

Board governance

The R.T. Exports Board of Directors ('the Board') has developed a robust corporate governance framework to ensure that we conduct our business responsibly. The appointments to the Board are made by the nomination and remuneration committee of the Board.

Exports, the Board of Directors is at the core of our corporate governance practice- how the Management serves and protects the long-term interests of our stakeholders. As on March 31, 2015, 50% of our Board members — 2 out of 4 — are independent members.

We follow the best practice of nominating an independent director as the chairperson of our committees such as the audit, nomination and remuneration, and stakeholders relationship committees.

Commitment to responsible business

Our *renew* and *new* strategy envisages closer relationships with our stakeholders to provide better and more optimized solutions through state of art warehouses.

Operational excellence through innovation
